- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01. Other Events.

Coffeyville Resources Nitrogen Fertilizers, LLC ("CRNF") is a wholly-owned subsidiary of a limited partnership in which CVR Energy, Inc. owns all of the interests (other than the managing general partner interest and associated incentive distribution rights). On October 1, 2010, CRNF announced that it will move up its planned turnaround, in response to a rupture that occurred to a high-pressure Urea Ammonium Nitrate (UAN) vessel at its Coffeyville, Kansas facility. The incident occurred shortly after 6:30 p.m. central time on September 30, 2010 and no injuries were reported. CRNF's biannual turnaround was planned to begin on October 5, 2010 and extend through October 27, 2010. However, a portion of that work will be advanced to minimize impact on production.

The press release dated October 1, 2010 included as Exhibit 99.1 to this Current Report on Form 8-K is incorporated herein by reference.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits

99.1 Press Release dated October 1, 2010, issued by CRNF

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

COFFEYVILLE NITROGEN FERTILIZER PLANT ADJUSTS TURNAROUND DATES

COFFEYVILLE, Kan. (Oct. 1, 2010) — Coffeyville Resources Nitrogen Fertilizers announced today that it will move up its planned turnaround program at production facilities here after a rupture occurred in a high-pressure Urea Ammonium Nitrate (UAN) vessel.

A biannual turnaround had been planned to begin on Tuesday, Oct. 5, and run in stages through Wednesday, Oct. 27. Part of that work will now be pulled forward to minimize impact on production schedules.

The incident occurred shortly after 6:30 p.m. on Thursday, Sept. 30. No employees were injured.

Although the incident was heard throughout the area surrounding the plant, no major impacts were reported beyond the facility's fence line. The remainder of the plant was brought down in an orderly fashion subsequent to the rupture. Damage was centered at the UAN facility, but no damage estimates were immediately available. Early indications suggest that the gasification and ammonia synthesis plants were not materially impacted.

The adjacent Coffeyville Resources Refining & Marketing 115,000 barrel per day refinery continues to operate normally.

Coffeyville Resources Nitrogen Fertilizers, LLC, and Coffeyville Resources Refining & Marketing, LLC, are subsidiaries of CVR Energy, Inc.

About CVR Energy, Inc.

Headquartered in Sugar Land, Texas, CVR Energy, Inc.'s subsidiary and affiliated businesses include an independent refiner that operates a 115,000 barrel per day refinery in Coffeyville, Kan., and markets high value transportation fuels supplied to customers through tanker trucks and pipeline terminals; a crude oil gathering system serving Kansas, northern Oklahoma, western Missouri and southwestern Nebraska; an asphalt and refined fuels storage and terminal business in Phillipsburg, Kan.; and through a limited partnership, an ammonia and urea ammonium nitrate fertilizer business located in Coffeyville, Kan.
